They are the best that industrial science ever evolved. They are full of good points which none of the other refrigerators have. Ranneys are silways the same—the best. A Ranney will save more ice than one of our real hot days in Washington could mell. It's perfectly airtight, fined with mineral wood, sheathed with charcoal, and made so that the faintest breath of heat-laden air can't penetrate it.

The fare for the round trip to Alexandria is reduced to 20c, and to Mount Vernon to 35c every evening after 7 o'clock. These trains run through without change, stopping only at the McClellan and Sheridan gates at the National Cenatery. Electric trains leave for Mount Vernon during the week every hour from 10 a. m. to 5 p. m. Arlington.
